

# Make A Difference

## EDUCATIONAL LEARNING SERIES

Protect,  
enhance  
and save  
lives

IBA's 2010 "Make A Difference" Educational Learning Series features informative, targeted web-based presentations by noted PET physicians. These indication-specific events will focus on the appropriate utilization of PET imaging, and how PET can impact patient care. A comprehensive review of current literature and case studies takes place during each session. On May 26th, an "Overview of NaF PET Imaging" will be featured. Following that will be a dual series of presentations on the application of PET and PET/CT in lymphoma, breast cancer and gynecologic cancers. For each of these indications, IBA will present a Marketing Focus Webinar, for PET marketers/educators, followed by a Clinical Focus Webinar, for physicians and technologists. All webinars will feature opportunities for questions and discussion. Please join us for these informative sessions.

Register today for any or all of these FREE educational webinars.

### F-18 Sodium Fluoride (NaF) General Education

Event Date: **May 26, 2010**  
Event Time: **3:00 pm, EDT**  
Event Number: **663 901 586**
