

On behalf of IBA Molecular, we would like to introduce our presenters...

Brian Abraham

Brian Abraham, IBA's Director of Coding and Reimbursement, heads IBA Molecular's efforts in providing customer support in the area of PET reimbursement and coding. He also works closely with key industry and regulatory bodies to insure appropriate coverage for current and future PET radiopharmaceuticals. Brian has many years of experience with pharmaceutical and health economics firms, focusing on coverage and reimbursement. He has a Bachelor's degree from The College of William & Mary and a master's degree in Public Administration from The George Washington University.

Aviva Asnis-Alibozek, PA-C, MPAS, DFAAPA

Aviva Asnis-Alibozek is Head of Global Medical Affairs for IBA Molecular. She is a graduate of the Yale University School of Medicine, and a board-certified physician assistant with experience in the clinical practice of oncology and urologic oncology. Over the past 10 years, she has held key medical affairs positions with major pharmaceutical manufacturers in the field of emerging oncology research, development and scientific communications.

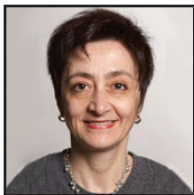

Chris Bentley, CNMT

Chris Bentley is a PET Clinical Educator with IBA Molecular North America, Inc., for the Southern U.S. region. He is a board-certified nuclear medicine technologist, with experience in PET and PET/CT Imaging. Mr. Bentley has held positions in sales, marketing and education/training with national firms in PET imaging and radiopharmaceuticals. He has notable experience in developing and executing PET education programs for marketers, technologists and physicians, focused on developing Practice Excellence for imaging programs.

Robert S. Bridwell, M.D., M.B.A

Dr. Robert Bridwell is co-founder of PETLinQ and a medical advisor to IBA Molecular. A noted PET physician and educator, he is board-certified in both Internal Medicine and Nuclear Medicine. Former Chief of Nuclear Medicine and Director of PET/CT Services at Walter Reed Army Medical Center in Washington, D.C., Dr. Bridwell has extensive knowledge and experience in continuous quality improvement programs for PET and PET/CT.

Lale Kostakoglu, M.D.

Lale Kostakoglu, M.D. is Professor of Radiology and the Director of PET/CT Oncology and Research at Mount Sinai School of Medicine in New York. She is a board-certified Nuclear Medicine Physician, completing work in nuclear medicine and immunology at Memorial Sloan-Kettering Cancer Center. Dr. Kostakoglu has made significant contributions to the nuclear medicine community by her studies, articles and lectures on radioimmunotherapy for lymphoma and prostate cancer, and on FDG-PET imaging in lymphoma and head/neck cancers.

Daniel Pryma, M.D.

Dr. Daniel Pryma is Assistant Professor of Radiology, and Interim Chief, Division of Nuclear Medicine and Clinical Molecular Imaging, Department of Radiology, University of Pennsylvania Health System, Philadelphia, Pennsylvania. Dr. Pryma has been recognized by the American Board of Nuclear Medicine. A noted educator and writer, Dr. Pryma been recognized for his efforts by the AUR, RSNA, AACR, ASCO, and the SNM Nuclear Oncology Council. He currently serves on a number of select academic and institutional committees, focusing on the development, use and safety of radiopharmaceuticals.

Corissa Scullin

Corissa Scullin is a PET Clinical Educator with IBA Molecular North America, Inc. for the Northeast U.S. region. She has held positions in sales/marketing, management, and education/training with national firms in PET imaging, pharmaceuticals and radiopharmaceuticals. Corissa has notable experience in developing and executing continuing education programs for referring physicians, focusing on clinical indications, insurance issues and recent medical advances.
